## == Of Local Interest. ==

\$1.50 to Cincinnati and return Sunday.

See statement of Peoples Bank in this issue.

The weather has been "hotter" than blue blazes.

Lancaster was as quiet as a country grave yard on the Fourth.

The hoodlums have learned to behave on the Cincinnati excursions.

Water is in sight. So is an improvement in Lancaster business affairs.

As waterworks grow nearer a reality, the moss can be seen slipping off old Lancaster's back.

Even in this late day you occasionally run upon a fool who asks "Is it hot enough for you?"

Remember its a first-class train, good order and lots of attractions in the city, which you get the benefit of Sunday for only \$1.50.

A young lady asked a certain Lancaster boy if he was fond of sweet peas. "No, I never eat 'em, nor beans, either," was the reply.

The little boys' baseball team, of Danville, came over and played a good game with the home urchins, Lancaster winning by three scores.

Water is again in sight, and the prospects are brighter than ever. When the system is put in, old Lancaster will awaken and come to the front.

The colored people were out in large numbers Saturday to attend the picnic. The Reentown band furnished the music, and there was a big dance at night.

Mr. A. W. Bright was here Tuesday advertising the big Danville Fair, which will be one of the leaders in the state this year. Mr. Bright is a pleasant gentleman and a hustler.

This office has just printed a cart load of tickets for the Crab Orchard Fair. We also made the ribbon badges for officers. The fair lasts four days this year, and good money is being hung up in premiums.

### Around the World.

The first message to Gov. Taft in the Philippines over the Pacific cable was sent by President Roosevelt from Oyster Bay at 10:50 o'clock Saturday night and Gov. Taft's reply was received at 11:19 o'clock. The President started a message around the world to Clarence Mackay at 11:23 o'clock. Twelve minutes, elapsed time, was required in the transmission of the latter message. Mr. Mackay's answer was sent in nine and a half minutes.

### NOTICE.

On account of the conditions now existing in Lancaster, the County Institute which was to convene on Monday, July 13, is postponed subject to call. Mrs. L. L. Walker.

Rev. F. M. Tindler left Tuesday for Denver. He will not be here next Sunday, but will fill his pulpit Sunday the 19th. He goes to Denver to attend the meeting of the Christian Endeavor.

### Refreshments.

During July and August, the W. C. T. U. will serve refreshments in the Park every Thursday evening, from 6 to 10 o'clock. Cream and cake or sherbert and cake, 15c. Come help a noble cause.

### C. O. Fair Catalogues.

The Crab Orchard Fair catalogues are out, the work of the Interior Journal job rooms. The Journal office, which is one of the best equipped in the state, has a well merited reputation for splendid work.

### Married in Middleboro.

A letter was received by Mr. Clay Hamilton announcing the marriage of his sister, Hallie, to Mr. Wm. O. Dunlap, in Middleboro, Saturday. Mr. and Mrs. Dunlap left immediately for Virginia, where he is engaged in business.

### Died at Nineva, Ind.

The death of a bright youth occurred at Nineva age 22 years, a moral and upright young man, was almost through school and was preparing himself for the practice of law. He was the son of O. A. Land and grand-son of Nineva, Ind.

### Sunday Night.

The union meeting will be held in the Presbyterian church Sunday night. Dr. E. H. Pearce will preach the sermon. As stated elsewhere, these meetings meet the approval of a great majority of our people, and much good will be accomplished.

### To Investigate.

Councilman J. A. Beazley and City Attorney Swinebroad left Wednesday a. m., for Bloomington, Ind., and other points where the company now negotiating has done similar work. They will report back to the Council as soon as they return. This is a wise move.

### New Phones.

Advocate:—Mr. W. R. Bastin, an electrician of the Bastin Telephone Company, of Lancaster, is in Danville making several improvements in the system here. A number of new phones will be put in and the service will be materially strengthened. He will be in the city four or five days.

### Nothing Doing.

Danville Advocate:—Judge Mike Sautley, of Stanford, was in town this morning, and on being interviewed by an ADVOCATE reporter as to when the judicial muddle would be settled by the State Committee, he replied, "I do not know; in fact, I know no more news concerning the matter than is common to everybody."

### No Water at Nicholasville.

A special from Nicholasville says the Roy Lumber Company and the Standard Wheel Company have suspended operations because the water supply has been cut off. Sixty men are thrown out of employment. No rain has fallen since April. Hemp and tobacco are ruined, and stock is suffering for water.

### Former Lancaster Lady.

Harrodsburg Herald:—Miss Mattie Jackmandied Tuesday evening of flux, at the home of her mother on Highland addition. She was in the 46th year of her age, and was a conscientious member of the Baptist church. Funeral services, conducted by Rev. W. M. Wood, were held at the home last night at 9 o'clock and the remains were taken to Lancaster this morning for interment.

### Bob Jennings Buys.

Mr. R. L. Jennings has purchased the interest of his partner, Mr. T. M. Lackey, at Paint Lick. Mr. Lackey recently returned from Texas, but soon found his health would not permit his remaining in Kentucky, and is forced to return to the West. He is a fine business man, and it is regretted that he is unable to remain in this section, but health must be considered before everything else. Mr. Jennings is a hustler and will keep his store right up at the head of the procession.

### Kind Words For Record.

The Lexington Democrat and Stanford Interior Journal have printed pictures of the editor of this paper, and his better nine-tenths, adding the following deeply appreciated words:—"Mr. Landram is Chairman of the Executive Committee of the Kentucky Press Association, which meets in Lexington this month. He is editor of the Central Record, of Lancaster, the only truly independent paper in the United States. Mr. Landram plays no favorites politically, and is for the man and the ticket which he thinks will bring the greatest good to the greatest number. He is a fine writer, a most companionable gentleman and a friend that sticketh closer than a brother. His accomplished wife, who was a Miss Marksbury, assists him both as book-keeper and society editor and is invaluable to him. Mr. Landram is a son of that distinguished Federal soldier, the late Gen. W. J. Landram."

### Several Additions.

The protracted meeting at the Baptist church has been largely attended, and interest awakened among the members. Several have united with the church. Mr. Huey's sermons have been highly complimented. He is one of the best preachers in the state, and an earnest worker.

### No Small Fox in Town.

The Record is authorized by those in authority to say positively that there is no small pox in Lancaster. Three cases were found on the Chute some days ago, but they were quickly sent five miles in the country to a pest house. As stated above, we are authorized to state positively that no small pox exists in Lancaster. As there was apparently no danger, The Record didn't intend to even mention it, but some smart Alex having spread a false report, one of the officials requested us to give the true state of case.

### Another One on Jo Blackburn.

Senators Blackburn and Lindsay, of Kentucky, were once traveling together through the Allegheny mountains. Blackburn went into the smoking car and returned in a few minutes looking so much depressed that Lindsay asked: "What's the matter, Jo?" "Why, I've lost the better part of my baggage," said Blackburn in heart-broken tones. "Was it stolen or did you leave it behind?" "Worse than either—the cork came out."

### On Right Track.

The Record trusts that the City Council will not weary by the talk of the usual knockers, who knock everything and everybody. They might put in pipes and run peach brandy and honey into every house in town, free of charge, and some would kick for gold goblets to drink from. You are on the right track, gentlemen, you are doing exactly what ninety-nine one-hundredths of the people want you to do, so keep your shoulder to the wheel, and pay no attention to gab of knockers. The taxpayers want water, and your plan is the only one that will get it.

### Dripping Springs Open.

This delightfully cool and pleasant resort is now open to the public, everything having been put in first-class condition for the season. Mr. Rothwell has secured his former cooks, the best ones in Kentucky, and has filled the larder to overflowing with everything that is good in the eating line. The tables will be kept up to the former standard, and you can find no more pleasant or profitable place to recuperate during the hot summer days. The rates are moderate, the rooms neat, the beds fine and the water cannot be equaled anywhere. For further particulars address J. M. Rothwell, Lancaster, or Crab Orchard. Jy-10-1f

### Unusual Dividend.

Notwithstanding the fire under which the Peoples Bank, at Paint Lick, went last week, the hustling institution declared its usual dividend of six per cent., carried \$1,500 to the surplus fund and set aside \$750 to add to the insurance to be used in rebuilding. Experienced banking people pronounce this a splendid showing, and it certainly speaks well for the able management of the Bank. As soon as the insurance adjusters finish their work, rebuilding will commence and be pushed with all rapidity. The new house will be much larger, the increasing business demanding it. The institution is no longer an experiment but an established necessity which the people are not going to do without.

### Vocal Contest.

The second annual Vocal Contest, given under the auspices of the Ladies Aid Society, will be held in Lancaster the latter part of July. There will be a large list of contestants from various towns in Central Kentucky, and this contest promises to be the biggest attraction of the year in Lancaster. Next week's issue of The Record will give more detailed account, and announce exact date. The efforts of the ladies of this society know no limit in making a success of anything which they undertake, and more than ordinary interest is already being manifested by them to make it even more successful and entertaining than was that of last year. Remember this is strictly a VOCAL contest, and not an elocutionary entertainment. 2t

### Will Result in Good.

The first of the Union Services were held in the Methodist church Sunday, when Rev. F. M. Tindler preached. Notwithstanding the disagreeable weather, a large congregation assembled, and enjoyed the services. It certainly shows a christian spirit for congregations of different denominations to meet together, send up their songs and prayers with one accord. When church people lay aside the silly idea that there is no church but "our's" the world will be more easy to bring into the fold. Nothing is more inspiring than to see a church full of people of all denominations joining in the service with the spirit which true christians should, and nothing is more abominable than the person who will attend only his own church, never listen to any preacher but his own nor join hand in hand with any one save a member of his flock. Such narrow-minded people will not take up much space on the pearly streets, nor will it take very many harps to go round with them.

### Property Owners, Lookout.

We have it by grapevine telegraph that a list of all property owners who are permitting filth, dirt and other objectionable things to remain on their premises will be given to the grand jury, and indictments returned against the owners. Several gentlemen are quietly obtaining all needed information, and something is going to "drap," as certain as you are a foot high. People who permit filthy premises should be made to pay heavy fines.

### NOW A CERTAINTY.

City Council Takes Definite Steps Toward Putting in Water Works.

It is now a forgone conclusion that Lancaster is to have a system of waterworks, what she needs worse than any other one thing. The Council, after careful consideration of several locations, found a site on the Geo. Evans farm which, by building a 25 foot dam for a natural lake which will hold 17,000,000 gallons of water, and which will be easily kept filled by water from surrounding hills. This is a very short distance from town, and the whole plant, pipes and all, will not cost more than \$22,500. The dam will cost about \$2,000. The Council ordered the survey made, and this is now being done. It is estimated that the whole plant will be in operation by within three months, barring accidents, of course. The dam will be 55 feet high, the water standing 33 feet deep. The lake will cover five acres of ground.

The work is being done by Mr. Frank Shefford, of the firm of Beaman & Shefford, Louisville and New Albany, Ind., who has had much experience in this line. He repaired the dam at Bloomington, Ind., which holds about the same quantity of water as this will, and as that is a city of 10,000 people, it will be readily seen that an abundance of water will always be at hand here. Now that it has been fully determined to put in the plant, every man, woman and child in Lancaster should arise and sing the long-meter doxology, for we have been at a standstill, property was not safe, and, to put it in plain words, Lancaster has been just about as dead as any town on the map, but with fire protection, and an abundant supply of water, The Record looks for business generally to pick up, and the old town to get a move on which will be glorious to behold. All honor to her public-spirited, up-to-date, hustling City Council.

The Springs Hotel will be able to care for all who come to the Crab Orchard Fair.

The streets will be kept thoroughly sprinkled at Crab Orchard Fair. A new sprinkler will run day and night.

Come in and let us dress you up so you will

### Graded School Notes.

The Board of Trustees, of Lancaster Graded School, after mature deliberation, selected by a unanimous vote, Miss Nellie Peyton, of Lexington, and Miss Adele Crawford, of Henderson, Ky., to fill the vacancies caused by the resignation of Prof. Howard Sullivan and Miss Knapp West. Both come highly recommended and it is believed they will give entire satisfaction. Both are well educated and have had experience in teaching advanced students.

At a recent meeting of the trustees it was decided to adopt a uniform for daily use in the High School department which shall consist of navy blue mortar-board hats and dress to correspond. This however is subject to decision of a committee of ladies to be appointed at a future meeting. This action was taken in order to prevent expensive dressings while in school. Children in the primary and intermediate grades may use the same uniform if desired.

If the authorities would have the deep grass in the College Campus mowed and town cows taken up for loitering upon the grounds the patrons would be very much delighted. Such beautiful grounds should be kept in perfect order.

## J. A. BEAZLEY & CO
